

Landing Page Build Notes

This landing page was implemented as a frontend-first corporate single page and aligned to the brief.

| Implemented Sections

1. Sticky corporate header and responsive navigation
2. Hero with parent positioning and dual CTA
3. Group introduction plus approach card
4. Sector overview grid (all six sector cards)
5. Portfolio logic grouping section
6. Markets footprint section
7. News and insights preview cards
8. Key Corporate Events timeline preview
9. Strategic final CTA band
10. Contact form with sector routing options
11. Corporate footer and legal links
12. Cookie banner controls and local consent state

| Included Frontend Behavior

- Mobile menu toggle with state update
- Cookie consent dismiss and local storage persistence
- Smooth anchor scrolling
- Responsive layout for desktop/tablet/mobile

| Next Backend Integrations

- Real form submission endpoint and mailbox routing
- Anti-spam and CAPTCHA
- CMS data feed for sectors, insights, events
- Analytics event tracking and consent-based script loading
